

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>  Tariff For Electric Service	Section II	Sheet No. 3
	Revision 8	Page 1 of 2
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS	<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

## II. RATE SCHEDULES

### 201.1 General Service.

#### A. Availability.

1. Residential Farm – Service to Farm and/or Ranch residential and/or premises for residential usage and for appliances for producing and processing products produced on the farm or ranch. Non-residential loads in excess of ten kilowatts (10 kW) shall be separately metered and billed on the applicable rate schedule. Pumping loads in excess of ten horsepower (10 HP) shall also be separately metered and billed under the applicable rate schedule. This rate specifically excludes hot-house operations, egg and/or chicken operations, and such other commercial endeavors.
2. Residential Non-Farm – Service to individually metered private dwellings in or adjacent to cities, towns, and small communities for lighting, heating, household appliances, and other equipment in connection with residential usage. Service to multiple dwelling units, unless separately metered, shall be billed in accordance with the Cooperative’s appropriate commercial rate.
3. Rural Recreation – Service to non-profit, community recreational projects such as arenas, playgrounds, ball parks, golf courses, and other facilities of a similar nature whose uses are not covered by another specific rate.
4. Churches and Parsonages – Service to individually metered church facilities having demands of less than 50 kW.
5. Schools – Service to individually metered school facilities having demands of less than 50 kW.
6. General – If any portion of a private dwelling is used for the conduct of business, the electric energy consumed for that purpose shall be separately metered and billed in accordance with the Cooperative’s appropriate commercial rate. If circuits for separate metering are not provided by the member, the entire premises shall be classified as non-residential and billed accordingly.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>  Tariff For Electric Service	Section II	Sheet No. 3.1
	Revision 8	Page 2 of 2
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS	<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

B. Character of Service.

Alternating current, 60 Hertz, at available secondary voltages. Frequency and voltage shall be subject to reasonable variation.

C. Rates.

Member Charge	\$22.50 per month
Bluebonnet Service Charge	\$0.023948 per kWh
Wholesale Power Charge	\$0.072674 per kWh

D. Minimum Charges.

The minimum monthly charge shall be the higher of the following:

1. The minimum monthly bill will be the Member Charge.
2. No minimum monthly charge shall be less than established in accordance with the Line and Service Extension Policy.

E. Billing Adjustments.

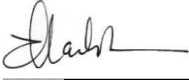

This rate is subject to all billing adjustments.

F. Terms of Payment.

Each bill for utility service(s), regardless of the nature of the service(s), is due 16 days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next workday. If full payment is not received in the office of the Cooperative on or before the date such bill is due, the gross amount (including late payment fee) shall be due and the member's account will be considered delinquent and subject to disconnection if not paid.

G. Conditions of Service.

1. The service to the member shall be subject to the rules and regulations of the Cooperative.
2. The member's electric wiring facilities shall conform to the Cooperative, City, State, and National electric codes.
3. The member shall not resell or share electric service with others.
4. The member shall be billed for all applicable franchise fees.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>  Tariff For Electric Service		Section II	Sheet No. 4
		Revision 8	Page 1 of 2
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

## 201.2 Commercial Service.

### A. Availability.

Available to all commercial and industrial members and other members whose electric requirements for all uses are less than fifty kW (50 kW), and where usage is not covered in a specific rate schedule. Requirements of 50 kW and above will be billed on the Large Power rate schedule.

### B. Character of Service.

Alternating current, 60 Hertz, at available secondary voltages. Frequency and voltage shall be subject to reasonable variation.

### C. Rates.

Single-Phase Service –	
Member Charge	\$27.50 per month
Bluebonnet Energy Charge	\$0.030218 per kWh
Wholesale Energy Charge	\$0.072674 per kWh
Three-Phase Service –	
Member Charge	\$50.00 per month
Bluebonnet Energy Charge	\$0.032099 per kWh
Wholesale Energy Charge	\$0.072674 per kWh

### D. Minimum Charges.

The minimum monthly charge shall be the higher of the following:

1. The minimum monthly bill shall be the Member Charge.
2. No minimum monthly charge shall be less than established in accordance with the Line and Service Extension Policy.

### E. Billing Adjustments.

This rate is subject to all billing adjustments.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>		Section II	Sheet No. 4.1
		Revision 8	Page 2 of 2
Tariff For Electric Service			
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

F. Terms of Payment.

Each bill for utility service(s), regardless of the nature of the service(s), is due 16 days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next workday. If full payment is not received in the office of the Cooperative on or before the date such bill is due, the gross amount (including late payment fee) shall be due and the member's account will be considered delinquent and subject to disconnection if not paid.

G. Conditions of Service.

1. The service to the member shall be subject to the rules and regulations of the Cooperative.
2. The member's electric wiring facilities shall conform to the Cooperative, City, State, and National electric codes.
3. The member shall not resell or share electric service with others.
4. The member shall be billed for all applicable franchise fees.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>  Tariff For Electric Service		Section II	Sheet No. 5
		Revision 8	Page 1 of 2

### 201.3 Large Power.

A. Availability

Available to all commercial and industrial members whose electric requirements for all uses are fifty kilowatts (50 kW) or greater, and whose uses are not covered by a specific rate schedule.

B. Character of Service.

Alternating current, 60 Hertz, at available primary or secondary voltages as specified in the agreement for electric service. Frequency and voltage shall be subject to reasonable variation.

C. Rates.

Member Charge	\$125.00 per meter per month
Demand Charge	\$5.75 per Billing kW
Bluebonnet Energy Charge	\$0.007767 per kWh
Wholesale Energy Charge	\$0.072674 per kWh

D. Demand.

The demand shall be the maximum kilowatt (kW) demand established by a member for any thirty (30) minute interval during the billing month but not less than 50 kW.

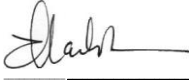

F. Billing Adjustments.

This rate is subject to all billing adjustments.

G. Minimum Charges.

The minimum monthly bill should be the higher of the following:

1. Established in accordance with the service extension policy, and stated in the agreement for electric service, or
2. The Member Charge plus the Demand Charge.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>		Section II	Sheet No. 5.1
		Revision 8	Page 2 of 2
Tariff For Electric Service			
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

H. Terms of Payment.

Each bill for utility service(s), regardless of the nature of the service(s), is due 16 days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received in the office of the Cooperative on or before the date such bill is due, the gross amount (including late payment fee) shall be due and the member's account will be considered delinquent and subject to disconnection if not paid.

I. Primary Service Discount.

If service is furnished at primary distribution voltage and the member provides transformation, a discount of three percent (3%) shall apply to the Demand and Energy charges. This discount shall not apply to billing adjustments.

J. Conditions of Service.

1. The service to the member shall be subject to the rules and regulations of the Cooperative.
2. The member's electric wiring facilities shall conform to the Cooperative, City, State and National electric codes.
3. The member shall not resell or share electric service with others.
4. The member shall be billed for all applicable franchise fees.

#### 201.4 Pumping Service.

A. Availability.

This rate shall apply to all pumping installations to which a specific rate is not applicable. Lighting and/or heating which is directly related to such pump installation is permitted.

B. Character of Service.

Alternating current, 60 Hertz, at available secondary voltages. Frequency and voltage shall be subject to reasonable variation.

C. Rates.

Member Charge	\$55.00 per meter per month
Bluebonnet Energy Charge	\$0.040075 per kWh
Wholesale Energy Charge	\$0.072674 per kWh

D. Billing Adjustments.

This rate is subject to all billing adjustments.

E. Terms of Payment.

Each bill for utility service(s), regardless of the nature of the service(s), is due 16 days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received in the office of the Cooperative on or before the date such bill is due, the gross amount (including late payment fee) shall be due and the member's account will be considered delinquent and subject to disconnection if not paid.

F. Conditions of Service.

1. The service to the member shall be subject to the rules and regulations of the Cooperative.
2. The member's electric wiring facilities shall conform to the Cooperative, City, State, and National electric codes.
3. The member shall not resell or share electric service with others.
4. The member shall be billed for all applicable franchise fees.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>  Tariff For Electric Service		Section II	Sheet No. 7
		Revision 9	Page 1 of 3
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

## 201.5 Lighting Service.

### A. Availability.

Applicable to electric service for dusk-to-dawn lighting to members of the Cooperative, including single or multiple installations such as private thoroughfares, subdivisions, parks or any outdoor applications where the Cooperative's existing facilities suitable to the installation are available and in accordance with the conditions of service hereunder using a night watchman or equivalent type installation.

### B. Character of Service.

Single-phase, 60 Hertz, at 120/240 Volts. Frequency and voltage shall be subject to reasonable variation.

### C. Rate.

#### Un-Metered Installations

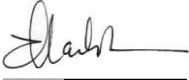

175 Watt Mercury Vapor	@	\$10.43 per month per light
<b>(The 175 Watt Mercury Vapor is no longer available for new installations.)</b>		
100 Watt Hi-Pressure Sodium	@	\$10.43 per month per light
250 Watt Hi-Pressure Sodium	@	\$14.80 per month per light
400 Watt Hi-Pressure Sodium	@	\$20.16 per month per light

#### Metered Installations

175 Watt Mercury Vapor	@	\$4.98 per month per light
<b>(The 175 Watt Mercury Vapor is no longer available for new installations.)</b>		
100 Watt Hi-Pressure Sodium	@	\$7.16 per month per light
250 Watt Hi-Pressure Sodium	@	\$7.53 per month per light
400 Watt Hi-Pressure Sodium	@	\$8.53 per month per light

#### Adjustment for Multiple Units

Cities and/or communities installing public lighting under this schedule in quantities of ten (10) or more lights shall qualify for a discount of \$0.50 per month per light. Cities and communities qualifying for said discount shall receive only one invoice per month for the total number of lights installed and the responsibility of collection for the individual lights lies with the city or community. Relocation of fixtures and related appurtenances shall be governed by the Cooperative's construction policies.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>  Tariff For Electric Service	Section II	Sheet No. 7.1
	Revision 9	Page 2 of 3
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS	<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

D. Billing Adjustments.

This rate is subject to all billing adjustments.

E. Terms of Payment.

Each bill for utility service(s), regardless of the nature of the service(s), is due 16 days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received in the office of the Cooperative on or before the date such bill is due, the gross amount (including late payment fee) shall be due and the member's account will be considered delinquent and subject to disconnection if not paid.

F. Conditions of Service.

1. The member shall request the installation for the desired light and upon activation it shall be the member's obligation for payment of expenses incurred for monthly services and service shall be automatically extended from month to month until the member or Cooperative gives notice of desire to terminate.
2. The Cooperative will install on existing facilities, and maintain one or more lamps, all necessary equipment at each installation without cost to the member except that costs of repair or damage due to vandalism shall be billed to and paid by the member.
3. If the member requests to relocate an existing light or change-out for a different wattage, a standard service charge shall be billed.
4. Security light installations and related appurtenances shall be owned, operated, and maintained on the security light.
5. It shall be the member's responsibility to notify the utility of any necessary maintenance on the security light.
6. Security light installations shall only be maintained by the utility during normal working hours.
7. Security light installations may be inoperative for a period within a month, but such period shall not cause the net rate per month to be adjusted.
8. Security light installations may be installed on a temporary basis in accordance with the rules and regulations covering temporary electric service.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>		Section II	Sheet No. 7.2
		Revision 9	Page 3 of 3
Tariff For Electric Service			
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

9. Security lights shall be installed on existing facilities of the Cooperative at no expense to the member other than the monthly service charge. In the event that a member desires an additional wood pole (at a distance not to exceed 100 feet from the Cooperative's existing facilities) for a particular light installation, the wood pole will be provided at a cost of \$125.00 to that member. Said \$125.00 shall be deemed a non-refundable contribution. Member's requesting installations exceeding 100 feet from existing facilities shall be required to pay the actual cost of the required facilities as a non-refundable contribution-in-aid-of-construction (CIAC) prior to the facilities being constructed.
10. A switch will be installed at the request of the member for a non-refundable fee of \$50.00 to enable the member to switch the light off and on. No reduction in the monthly charge will be allowed as a result of this switching privilege.
11. Monthly energy use for security light installations under this schedule are estimated at:
 

175 Watt Mercury Vapor	@	75 kWh per month per light
100 Watt Hi-Pressure Sodium	@	45 kWh per month per light
250 Watt Hi-Pressure Sodium	@	100 kWh per month per light
400 Watt Hi-Pressure Sodium	@	160 kWh per month per light
12. The member, rates and schedules shall be subject to the rules and regulations of the Cooperative.
13. Member requests for lighting facilities other than standard (wood poles, overhead conductor, and standard night watchman fixture) shall require the member to furnish the cost difference between his request and the standard installation.
14. If the 175 Watt Mercury Vapor Light requires maintenance limited to replacing the bulb, control or shade, the Cooperative shall replace the parts as needed. If the fixture requires maintenance, the 175 Watt Mercury Vapor Light will be replaced with a 100 Watt High-Pressure Sodium Light.
15. **AS OF OCTOBER 1, 2000, THE 175 Watt Mercury Vapor Light IS NO LONGER AVAILABLE FOR NEW INSTALLATIONS.**
16. The member shall be billed for all applicable franchise fees.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>  Tariff For Electric Service	Section II	Sheet No. 8
	Revision 8	Page 1 of 3
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS	<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

**201.6 Public Lighting.**

A. Availability.

Applicable to metered electric service for lighting public thoroughfares and traffic lamps for a term of not less than one year, where the extension of such facilities by the Cooperative does not exceed one lineal foot for each watt of capacity. In no case will the Cooperative extend service under this schedule for less than 300 watts of lighting for each unit installed.

B. Character of Service.

Alternating current service, single-phase, 60 Hertz, at 120/240 Volts, either series or multiple system or in combination, at the option of the Cooperative. Frequency and voltage shall be subject to reasonable variation.

C. Rate.

The rate for this service consists of two parts as follows:

Member Charge	\$25.00 per month
Bluebonnet Energy Charge	\$0.122326 per kWh
Wholesale Energy Charge	\$0.072674 per kWh

Maintenance Charge                      Lamps shall be furnished or paid for by the member and/or members at the next regular billing.

D. Relocation of Lamps.

The Cooperative shall, at the request of the member, relocate or change existing equipment. The member shall reimburse the Cooperative for such changes at actual cost, including appropriate overheads.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>  Tariff For Electric Service	Section II	Sheet No. 8.1
	Revision 8	Page 2 of 3
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS	<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

E. Metering.

All energy consumed under this schedule shall be metered excepting installations where, in the opinion of the Cooperative, metering would be impractical. When the consumption is metered, the meters shall be installed in or connected to the lighting circuit and the billing shall include the energy delivered to and consumed in all circuits and equipment used exclusively for street lighting purposes. If more than one meter is used, the readings shall be consolidated for billing purposes.

When the energy is not metered and, also, when a meter is found to be in error, the consumption for billing purposes shall be computed from the rated capacity of the lamps plus five percent (5%) for losses, multiplied by the number of hours of use.

F. Billing Adjustments.

This rate is subject to all billing adjustments.

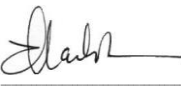

G. Conditions of Service.

1. The member, rates and schedules shall be subject to the rules and regulations of the Cooperative.
2. The member's electric wiring facilities shall conform to the Cooperative, City, State, and National electric codes.
3. The member shall not resell or share electric service with others.
4. The members shall be allowed to consume the kilowatts (kW) or kilowatt hours (kWh) at the applicable rate herein, for the monthly minimum charge.
5. Special conditions of service shall be covered in an agreement for electric service.
6. It shall be the member's responsibility to notify the utility of any necessary maintenance on the lighting system.
7. THIS SCHEDULE IS NOT AVAILABLE TO NEW APPLICANTS.
8. In addition to the above charges, the member will be billed for all taxes applicable to the sale of electricity, including, but not limited to, sales, gross receipts, and franchise taxes.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>		Section II	Sheet No. 8.2
		Revision 8	Page 3 of 3
Tariff For Electric Service			
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

H. Terms of Payment.

Each bill for utility service(s), regardless of the nature of the service(s), is due 16 days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received in the office of the Cooperative on or before the date such bill is due, the gross amount (including late payment fee) shall be due and the member's account will be considered delinquent and subject to disconnection if not paid.

<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: February 25, 2010	

**201.11 Key Account (KA)**

A. Availability

Available to all commercial and industrial members whose electric requirements for all uses are three hundred kilowatts (300 kW) or greater and subject to the availability of power from the Cooperative's wholesale power provider, throughout the term of the service as stated in the agreement for electric service.

B. Character of Service.

Alternating current, 60 Hertz, at available primary or secondary voltages as specified in the agreement for electrical service. Frequency and voltage shall be subject to reasonable variation.

C. Rates.

Wholesale Power Cost	Best wholesale power rate
Member Charge	\$500.00 per month
Demand Charge	\$6.21 per kW of Billing Demand
Energy Charge	\$0.000000 per kWh

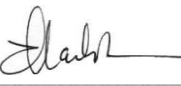

D. Billing Demand.

The billing demand shall be the greater of:

1. The maximum kilowatt (kW) demand established by a member for any sixty (60) minute interval during the current billing month or
2. 300 kW.

E. Billing Adjustments.

This rate is subject to all billing adjustments by the Cooperative's wholesale power provider or the Cooperative.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>		Section II	Sheet No. 9.1
		Revision 2	Page 2 of 2
Tariff For Electric Service			
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

F. Minimum Charges.

The minimum monthly bill shall be the higher of the following:

1. Established in accordance with the service extension policy, and stated in the agreement for electric service, or
2. The Member Charge plus Demand Charge plus Wholesale power cost.

G. Terms of Payment.

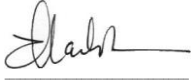

Each bill for utility service(s), regardless of the natures of the service(s), is due 16 days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received in the office of the Cooperative on or before the date such bill is due, the gross amount (including late payment fee) shall be due and the member's account will be considered delinquent and subject to disconnection if not paid.

H. Primary Service Discount.

If service is furnished at primary distribution voltage and the member provides transformation, a discount of three percent (3%) shall apply to the Cooperative's Demand and Energy charges. This discount shall not apply to billing adjustments.

I. Conditions of Service.

1. The service to the member shall be subject to the rules and regulations of the Cooperative.
2. The member shall conform to the Cooperatives' Wholesale Power Supplier's Terms and Conditions for Key Account Service.
3. The member's electric wiring facilities shall conform to the Cooperative, City, State, and National Electric Codes.
4. The member shall not resell or share electric service with others.
5. The member shall be billed for all applicable franchise fees.

Tariff For Electric Service			
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: January 14, 2010	

### **201.12 College Discount Rider.**

A. Application.

Applicable in conjunction with an otherwise applicable rate schedule for electric service to any facility of any four-year state university upper level institution, Texas state technical college, or college to which the Cooperative is required to discount the base rates, as provided in PURA 95, Section 2.2141. The provisions of the applicable rate schedule are modified only as shown herein.

B. Monthly Rate.

In accordance with the terms of the applicable rate schedule, except that the amount due under the applicable rate schedule, minus the cost of purchased electricity applicable to the member and excluding any adjustment factors, cost recovery factors, or specific facilities charges, and service fees, is reduced as follows:

Commercial (College Discount)	
Single-Phase Service	
Member Charge	-\$5.50 per meter per month
Energy Charge	-\$0.006044 per kWh
Three-Phase Service	
Member Charge	-\$10.00 per meter per month
Energy Charge	-\$0.006420 per kWh
Large Power (College Discount)	
Member Charge	-\$25.00 per meter per month
Demand Charge	-\$1.15 per billing kW
Energy Charge	-\$0.001553 per kWh
Lighting Service (College Discount)	
175 Watt MV	-\$ 0.89
175 MV Metered	-\$ 1.12
100 Watt HPS	-\$ 1.22
100 Watt HPS Metered	-\$ 1.12
250 Watt HPS	-\$ 1.51
250 Watt HPS Metered	-\$ 1.51
400 Watt HPS	-\$ 1.24
400 Watt HPS Metered	-\$ 1.63

### **201.13 Wholesale Transmission Service – WTS**

A. Availability.

Planned and Unplanned Transmission Service are available at all points where transmission facilities of the Cooperative in the Electric Reliability Council of Texas (ERCOT) having adequate capacity and suitable voltage are available to implement Wholesale Transmission Service. Service under this tariff is wholesale service. Transmission service is not available for retail service.

All wholesale transmission service provided over the transmission facilities of the Cooperative will be available through the Lower Colorado River Authority (LCRA). All arrangements for this service must be made with LCRA.

B. Applicability.

Wholesale Transmission Service is provided within ERCOT to any Eligible Member as specified in the wholesale transmission tariff of LCRA.

C. Conditions.

The Cooperative will provide transmission service to any Eligible Member, provided that:

1. All conditions specified in LCRA's wholesale transmission service tariff have been satisfied; and
2. All arrangements specified in LCRA's wholesale transmission service tariff have been made through LCRA.

D. Pricing.

Charges for Planned and Unplanned Transmission Service shall be as specified in the applicable rates and schedules of LCRA.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>		Section II	Sheet No. 12
		Revision 0	Page 1 of 1
Tariff For Electric Service			
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS		<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> March 14, 2000   General Manager Effective Date: January 1, 2006	

## 201.14 Wholesale Distribution Service.

### A. Application.

The service provided pursuant to this tariff is transmission service, as defined in Public Utility Commission of Texas (PUCT) Rule 23.67(b)(8), using the Cooperative's facilities rated at less than 60 kilovolts. The Cooperative will make the service available in accordance with PUCT Substantive Rules 23.67 and 23.70, within 20 days of receipt of a completed application for service as required under PUCT Substantive Rule 23.70(e)(1)(A).

The 20-day deadline to provide service will not apply if adequate facilities are not in place at the time service is requested. If adequate facilities are not in place at the time service is requested, the Cooperative will construct the facilities necessary to provide the service as soon as reasonably practicable.

### B. Type of Service.

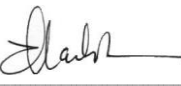

The Cooperative will provide this service at one point of delivery and measured with one meter, using facilities rated at less than 60 kilovolts, at 60 Hertz, at the Cooperative's standard primary distribution voltages.

### C. Rates, Terms, and Conditions.

Within 60 days of a request for this service, the Cooperative will submit to the Public Utility Commission of Texas proposed rates for the service. The rates ultimately approved by the Commission will apply retroactively beginning on the date service is initiated. The terms and conditions for the service are those stated in Commission Substantive Rules 23.67 and 23.70.

A contribution in aid of construction will be required if facilities must be constructed to provide the service, or if existing facilities must be altered to provide the service, in accordance with Commission Substantive Rule 23.67(n). All facilities altered or constructed by the Cooperative will remain the property of the Cooperative.

This service is not available to retail members currently being provided retail service by a certificated utility.

<b>BLUEBONNET ELECTRIC COOPERATIVE, INC.</b>  Tariff For Electric Service	Section II	Sheet No. 13
	Revision 2	Page 1 of 2
<u>SECTION TITLE:</u>  RATE SCHEDULES  APPLICABLE TO ALL AREAS	<b>BOARD OF DIRECTORS'</b> <b>DATE OF APPROVAL</b> November 17, 2009   General Manager Effective Date: February 25, 2010	

### **201.15 Wholesale Power Pass-Through (WPPT)**

A. Availability.

Available to all commercial and industrial members that only require metering facilities from the Cooperative to obtain electrical service and subject to the availability of power from the Cooperative's wholesale power provider, throughout the term of the service as stated in the agreement for electrical service.

B. Character of Service.

Alternating current, 60 Hertz, at available primary or secondary voltages as specified in the agreement for electric service. Frequency and voltage shall be subject to reasonable variation.

C. Rates.

Wholesale power cost plus 16.50%.

D. Billing Adjustments.

This rate is subject to all billing adjustments by the Cooperative's wholesale provider or the Cooperative.

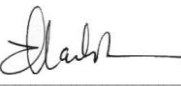

E. Minimum Charges.

The minimum monthly bill shall be the higher of the following:

1. Established in accordance with the agreement for electric service.
2. The Cooperative's wholesale power cost plus 16.50%.
3. \$150.00

F. Terms of Payments.

Each bill for utility service(s), regardless of the nature of the service(s), is due 16 days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received in the office of the Cooperative on or before the date such bill is due, the gross amount (including late payment fee) shall be due and the member's account will be considered delinquent and subject to disconnection if not paid.

G. Conditions of Service

1. The service to the member shall be subject to the rules and regulations of the Cooperative.
2. The member shall conform to the Cooperative's Wholesale Power Supplier's Terms and Conditions for Wholesale Power Service.
3. The member's electric wiring facilities shall conform to the Cooperative, City, State, and National Electric Codes.
4. The member shall not resell or share electric service with others.
5. Special conditions of service shall be covered in an agreement for electric service.
6. The member shall be billed for all applicable franchise fees.

## 201.16 Green Energy

### A. Availability

Available to all Bluebonnet members with electric service (excluding unmetered security lights).

### B. Rates

Applicable rate (as defined in tariff) plus \$0.005 per kWh

### C. Conditions of Service

1. Refer to other rate tariffs for definition of applicable rate.
2. Green Energy will be offered on the member's total electric kWh usage.
3. Rate transfers to and from Green Energy will be made at the beginning of the member's next billing cycle.
4. Green Energy rate is subject to change based on Bluebonnet expenses and Renewable Energy Credit (REC) market prices.

## 202 Billing Adjustments.

The Cooperative shall adjust all bills in accordance with the following adjustments if applicable:

### 202.1 Power Cost Recovery Factor (PCRF) – General.

The monthly charges for all members, other than those served under rate schedules providing for the direct recovery of power cost charges or credits, shall be increased or decreased on a uniform per kWh basis subject to Board approved PCRF calculation guidelines and as follows:

$$\text{PCRF} = \frac{(\text{A} - \text{B} \pm \text{C})}{\text{KWhs}}$$

Where:

- PCRF** = Power Cost Recovery Factor (expressed in \$ per kWh) to be applied to estimated energy sales for the billing period.
- A** = Total estimated purchased electricity cost (excluding credits or purchases from all suppliers that are applied directly to particular members) from all suppliers, including fuel for the billing period.
- B** = Total estimated purchased electricity cost (excluding credits or purchases from all suppliers that are applied directly to particular members) from all suppliers, including fuel, which are included in the Cooperative's base rates. The base power cost is computed as:  
 B = (D)(kWhs)  
 D = \$0.072674 per kWh
- kWhs = Total estimated energy sales for billing period (excluding kWh sales associated with direct recovery of power cost charges or credits).
- C** = Adjustment to be applied to the current monthly billing to account for differences in actual purchased electricity costs and actual PCRF revenues recovered in previous periods.

### 202.2 Sales Tax.

All bills shall be adjusted by the amount of any sales tax or other tax attributable to the sale of electric service to the Member unless Member has previously provided to the Cooperative satisfactory proof of exemption.

### **202.3 Overbilling and Underbilling.**

If billings for utility service are found to differ from the utility's lawful rates for the services being purchased by the member, or if the utility fails to bill the member for such service, a billing adjustment shall be calculated by the utility. If the member is due a refund, an adjustment shall be made for the entire period of the overcharges. If the member was undercharged, the utility may back bill the member for the amount which was underbilled. The backbilling is not to exceed six (6) months unless the utility can produce records to identify and justify the additional amount of backbilling or unless such undercharge is a result of meter tampering, bypass, or diversion by the member. No refund is required from the Cooperative except to the member last served by the meter prior to the testing. If a meter is found not to register for any period, unless bypassed or tampered with, the Cooperative shall make a charge for units used, but not metered, for a period not to exceed three (3) months.

### **202.4 Delinquent Accounts.**

The Cooperative may assess a late payment fee of \$5.00 or five percent (5%), whichever is greater, (based on the amount of the bill, excluding taxes), on each delinquent bill as specified in the applicable rate schedules.

### **202.5 Service Charges.**

Except as provided in these rules, the Cooperative shall charge \$50.00 for calls received during normal business hours (7:30 AM to 5:30 PM) and \$125.00 for all calls received during non business hours for a trip to Member's premises which is requested by the Member or is reasonably necessary under these rules or standard operating practice (e.g. trip to Member's premises for disconnection for non-pay, activation, reconnection, wiring re-inspection, breaker problems, installation of a device switch, temporary to permanent, meter loop installation, service upgrade, or miscellaneous purposes regarding problems with electrical service determined to be caused by Member's equipment).

### 202.6 Switchover Policy

In a dually certified service area, a member is required to provide written notice to Bluebonnet for disconnection of service. The member will also be required to pay in advance, all current balances and any cost associated with the disconnection/removal of facilities, including but not limited to labor, equipment, and travel expenses.

A member switching to Bluebonnet's system from another system will be required to present a receipt or other evidence from the disconnecting utility that all current charges for electric service and for the service disconnection have been paid. The new member will be required to comply with all conditions of the General Policy, Tariff 301.1.
